Governor Cooper,

I am writing to please ask you to not approve the ACP. This is not in the interests of North Carolina. Not for our economy, not for our health, not for jobs and not for the environment. Please don't approve this. It is a disaster! I have written you many times in the past year to request you to not approve this pipeline and outlined all of the reasons why. There are MANY.

Thank you,
Amanda

Global action for climate change has to start with people taking responsibility. Where ever they are.
